MODIFIED MP2 WORK ORDER BY FLEMING TECHNICAL.

Many MP2 users find that the standard MP2 work order is cluttered with too much unnecessary information. Frequently more than one page is required - requiring collation and stapling

This version of the long form work order features

- Improved visibility for high value data
- Low value data has been removed
- Up to 30 lines of Task instructions on the first page
- Comments & Delay description do not print on the standard short form work order.

LOW introductory price: \$145

Easy 2 minute installation

Additional modifications are available

Call Donal Fleming at 678-777-9015 or email df@flemingtechnical.com for details
